## **OBJECTIVES**

My interest in serving GOAL Academy stems from knowing how difficult it was growing up without guidance and with only the influence of a few outstanding teachers.

I especially know how the traditional school system can leave a child feeling helpless and lost. Unfortunately I have many memories of being embarrassed, shunned or ignored by the very teachers I looked to for support.

My interest in becoming a GOAL Board member stems from knowing how valuable an institution like GOAL would have had on my own experiences.
