

**LETTER OF NOTIFICATION**  
ANNUAL NOTICE TO PARENTS & MEMBERS OF THE PUBLIC

To: All Parents and Staff of GOAL High School.

From: Operations Administration

In Compliance with the US Environmental Protection Agency, (EPA), Asbestos Hazard Emergency Response Act (AHERA), we have performed school building inspections for asbestos-containing building materials and have developed an AHERA Asbestos Management Plan. The facilities findings and asbestos management plans are on file in the administrative office, for public review.

The EPA requires us to perform surveillances of the asbestos materials every six (6) months and to conduct re-inspections every three years.

No significant changes in the asbestos materials condition were noted during periodic surveillance of our drop-in-centers.

All asbestos materials are in satisfactory condition, and we shall continue to manage them in place, as recommended by the accredited management planner.

The results of the surveillance are on file in the management plan in the facility's administrative office.

Everyone is welcome to view this information anytime during normal hours (Monday-Friday, 9:00am-5:00pm). The asbestos management planner, Geri Sandoval, is available to answer any questions. (719) 924-4395
